

No customer left behind:

Stay Ahead of the Curve with Nimble AMS

Are you tired of being left behind? If you've felt the pain of a major investment turning into an outdated AMS system, you are not alone. With Nimble AMS, you no longer have to worry about being left behind, or enduring costly painful upgrades that frustrate your staff and slow you down.

All our customers are on the same version of Nimble AMS, product updates are automatic, and updates are implemented three times a year without fail, following the Salesforce upgrade approach. Nimble AMS removes the manual effort and takes on the challenge so you can focus on delivering value to your organization and its members.

Here are the essentials you miss without regularly scheduled updates:

1 Reduce cyber risks

Enhanced data protection security features ultimately deliver a more secure system

2 Expand your functionality

Innovative, reliable upgrades mean you also have access to the most up-to-date features & functionality.

3 Lower overall cost

Safeguard your future with continuous updates to avoid unstable and costly system disruptions.

4 Extend your software lifespan

Embrace updates to prolong the lifespan of your AMS investment.

5 Improved performance

Ensure a smooth member and staff experience with software that won't slow down your mission.

What customers can expect with Nimble AMS:

- ✓ All customers are on the same version of Nimble AMS: No customers left behind.
- ✓ Valuable seasonal product releases three times a year along with multiple maintenance releases.
- ✓ Preview an upcoming release in your Salesforce Sandbox to ensure your team can fully leverage the new features.
- ✓ Self-paced learning resources to help your staff navigate new features and enhancements.
- ✓ Updates executed behind the scenes by the Nimble AMS team, without you having to lift a finger.
- ✓ Customer pilots release while new major features continue to be introduced.
- ✓ Detailed change log kept for each release to reference for any changes.

“With Nimble AMS we now have easier and more reliable access to our member data. We can configure the system to meet our needs. And since it’s cloud-based, with easy product upgrades, we don’t have to worry about maintaining and updating it.”

J. Rex Brown, Director of Information Services, Petroleum Equipment Institute
